8.2	Number of Male Seniors Receiving OAS or OAS/GIS	32

INTRODUCTION

This publication presents socio-economic statistics for Manitoba on a regional basis. The regions used in this report are the Official Regions for Data Collection (also known as Economic Regions) which are aggregations of the 23 census divisions as follows:

Official Region For Data Collection	Economic Region	Census Divisions In Region
Southeast	10	1, 2, 12
South Central	20	3, 4
Southwest	30	5, 6, 7, 15
North Central	40	8, 9, 10
Winnipeg	50	11
Interlake	60	13, 14, 18
Parklands	70	16, 17, 20
North	80	19, 21, 22, 23

The data in this report was obtained from Manitoba Bureau of Statistics developed information, along with federal and provincial government sources. For some topics, the data was developed with the co-operation of both levels of government. For example, Income Profiles and Economic Dependency Profiles (Sections 4, and 5) were developed for the Manitoba Bureau of Statistics by the Small Area and Administrative Data Division, Statistics Canada using Revenue Canada taxation data. Seniors receiving Old Age Security or Guaranteed Income Supplement (Section 8) was obtained from Human Resources Development Canada data using the Manitoba Bureau of Statistics Postal Code Translator File.

The report presents the regional statistical information by major subject matter areas (e.g., demography, income, employment). This information will be updated on a continuing basis as data becomes available. Data presented in the report is the most recent in MBS possession although more recent data may be available now or in the immediate future and can be produced on request.

Suggestions for additions to or deletions from this report would be most welcome.

To obtain additional regional information or to provide comments and suggestions, contact David Greenwood at 945-2989.

1.0 Demography

This section illustrates demographic statistics for the 8 Official Regions for Data Collection.

Population estimates (Table 1.1) are presented as of July 1st each year during the period 1991 to 2001.

Deaths by age group for calendar years 1998, 1999 and 2000, (Table 1.2) are based on the registrations received from the Vital Statistics Agency, Department of Consumer and Corporate Affairs.

Population components for 1991-92 to 2000-01 are presented on a census year basis in Table 1.3.

Migration estimates in Table 1.3 have been developed from change of addresses on individual income tax records. Total migration is the total number of people moving to an area minus the total number leaving that area.

Life expectancy tables (Table 1.4) for Manitoba regions by sex were obtained from the abridged life tables, developed by the Manitoba Bureau of Statistics. Mortality data from 1995 to 1997 as reported to the Vital Statistics Agency, Department of Consumer and Corporate Affairs was utilized in constructing the tables. The reference population is the 1996 population estimate for July 1, 1996.

The expectation of life or the average remaining years of life at any given age is the average (mean) number of years remaining to be lived by those surviving to that age group. Thus, according to Table 1.4, Southeast males in the 20 to 24 age group are expected to live an additional 57.4 years.

A more detailed description of the MBS Life Expectancy Tables can be found in the publication "Manitoba Regional Life Expectancies 1995-97", produced by the Manitoba Bureau of Statistics in June, 1999.

2.0 Demographic Projections

The Manitoba Bureau of Statistics has developed a set of demographic projections on a regional basis, for the years 1998-2021. The regional population projections (Table 2.1) have been developed in accordance with the Manitoba Bureau of Statistics Manitoba level series of population projections.

Birth projections (Table 2.2) have been developed by extrapolating regional fertility rates on a quinquennial basis from 1971 to 1996 (1996 rates were assumed to hold until 2021). These rates were adjusted to make the sum of projected regional births equal the number of births for Manitoba under the Manitoba level population projections.

Over the projected period, regional life expectancies at birth (the assumption for death projections) were increased by an amount equal to the increase in life expectancies for Manitoba.

The regional life expectancies were then adjusted until the sum of regional deaths (Table 2.3) equalled the number of projected deaths for Manitoba under the official series of population projections.

The regional total migration projections (Table 2.4) were derived by applying historical regional migration distributions to the Manitoba level projections.

DATA SOURCE: MANITOBA BUREAU OF STATISTICS

3.0 Income Distributions

Income distributions have been developed from the Statistics Canada 1996 Census of Canada. The data presented reflects income for the 1995 calendar year. The distribution for Personal Income (as reported on an individual's Census return) is presented in Table 3.1. The geographical coding of the tax data is based on mailing addresses.

Persons reporting "zero or negative" Personal Income have been included in Table 3.1 but are excluded from Section 4, Income Profiles.

Income distributions have also been prepared for Employment Income, Employment Insurance Benefits and Labour Force Income and are available upon request.

Income distributions have also been developed for households. The distribution of Household Income is presented in Table 3.2. Income distributions are also available for Employment Income and Labour Force Income for Households.

Sources of Income:

All persons 15 years of age or over were asked to report their total money income from the following sources during the calendar year 1995:

(a) Wages and salaries
(b) Net income from Unincorporated Non-farm Business and/or Professional Practice
(c) Net Farm Self-employment Income
(d) Old Age Security Pension and Guaranteed Income Supplement
(e) Benefits from Canada or Quebec Pension Plan
(f) Family Allowances
(g) Federal Child Tax Credits
(h) Benefits from Employment Insurance
(i) Other Income from Government Sources
(j) Dividends and Interest on Bonds, Deposits and Savings Certificates and Other Investment Income
(k) Retirement Pensions, Superannuation and Annuities
(l) Other Money Income

Receipts Not Counted as Income include gambling gains or losses, money inherited in a lump sum, capital gains or losses, receipts from the sale of property or personal belongings, income tax refunds, loans received, loans repaid to an individual as the lender, lump-sum settlements of insurance policies, rebates of property taxes and other taxes, refunds of pension contributions, income "in kind" such as free meals, living accommodations, or agricultural products produced and consumed on the farm.

4.0 Income Profiles

Income profiles have been developed from income tax records. Profiles are presented for Total Income, Employment Income and Unemployment Insurance Benefits. Geographical coding of the tax data is based on mailing addresses. Income profiles are also available for Labour Force Income upon request.

Persons reporting "zero or negative" incomes are excluded from this section but were included in Section 3, Income Distributions.

Reference to a T1 tax return and the tax guide may be helpful in understanding these data.

Definitions:

The number of taxfilers	is the total number of persons filing income tax returns.
Total income	(Table 4.1) as reported to Revenue Canada on line 150 of the income tax return and as adjusted for tax purposes.
Employment income	(Table 4.2) is the sum of all sources of income associated with employment: T4 earnings, other employment income, professional, business, commission, fishing and farming.
Employment Insurance	(Table 4.3) income is all benefits reported for all reasons including retirement, maternity, sickness, fishing and occupational training as well as regular benefits.
Employment Insurance Dependency Ratio	(Table 4.3) is the total amount of UI benefits divided by the total amount of employment income.

5.0 Economic Dependency Profiles

Economic Dependency Profiles have been developed from income tax records. Geographical coding of tax data is based on mailing addresses.

Definitions:

Transfer Payments (Table 5.9) is the sum of family allowance, child tax credit, old age security, CPP/QPP, UI benefits, other pension benefits and non-taxable income/provincial tax credits as reported to Revenue Canada/Taxation.

Economic Dependency Ratio (EDR) is total amount of transfer payments divided by the total amount of employment income.

Provincial Index is the region EDR as a percentage of the provincial EDR.

Canadian Index is the region EDR as a percentage of the Canadian EDR.

Employment Insurance Benefits (Table 5.1) is the total amount of employment insurance benefits reported in thousands of dollars.

Contribution to EDR is the total amount of employment insurance benefits divided by the total amount of employment income.

Goods and Services Sales Tax Credits (Table 5.2) is the amount of goods and services tax credits reported in thousands of dollars.

Contribution to EDR is the total amount of federal child tax credits divided by the total amount of employment income.

Child Tax Credit Benefits (Table 5.3) is the amount of child tax credits reported in thousands of dollars.

Contribution to EDR is the total amount of child tax credits divided by the total amount of employment income.

Old Age Security Benefits (Table 5.4) is the total amount of old age security benefits reported in thousands of dollars.

Contribution to EDR is the total amount of old age security benefits divided by the total amount of employment income.

CPP/QPP Benefits (Table 5.5) is the total amount of CPP/QPP benefits reported in thousands of dollars.

Contribution to EDR is the total amount of CPP/QPP benefits divided by the total amount of employment income.

Worker's Compensation (Table 5.6) is the total amount of any compensation reported in thousands of dollars.

Contribution to EDR is the total amount of compensation divided by the total amount of employment income.

Social Assistance (Table 5.7) is the total amount of social assistance payments reported in thousands of dollars.

Contribution to EDR is the total amount of social assistance payments divided by the total amount of employment income.

Non-taxable Income/Provincial Tax Credits (Table 5.8) is the total amount of non-taxable income or provincial tax credits reported in thousands of dollars.

Contribution to EDR is the total amount of non-taxable income or provincial tax credits divided by the total amount of employment income.

Other Pension Benefits (Table 5.10) is the total amount of other pension benefits reported in thousands of dollars.

Contribution to EDR is the total amount of other pension benefits divided by the total amount of employment income.

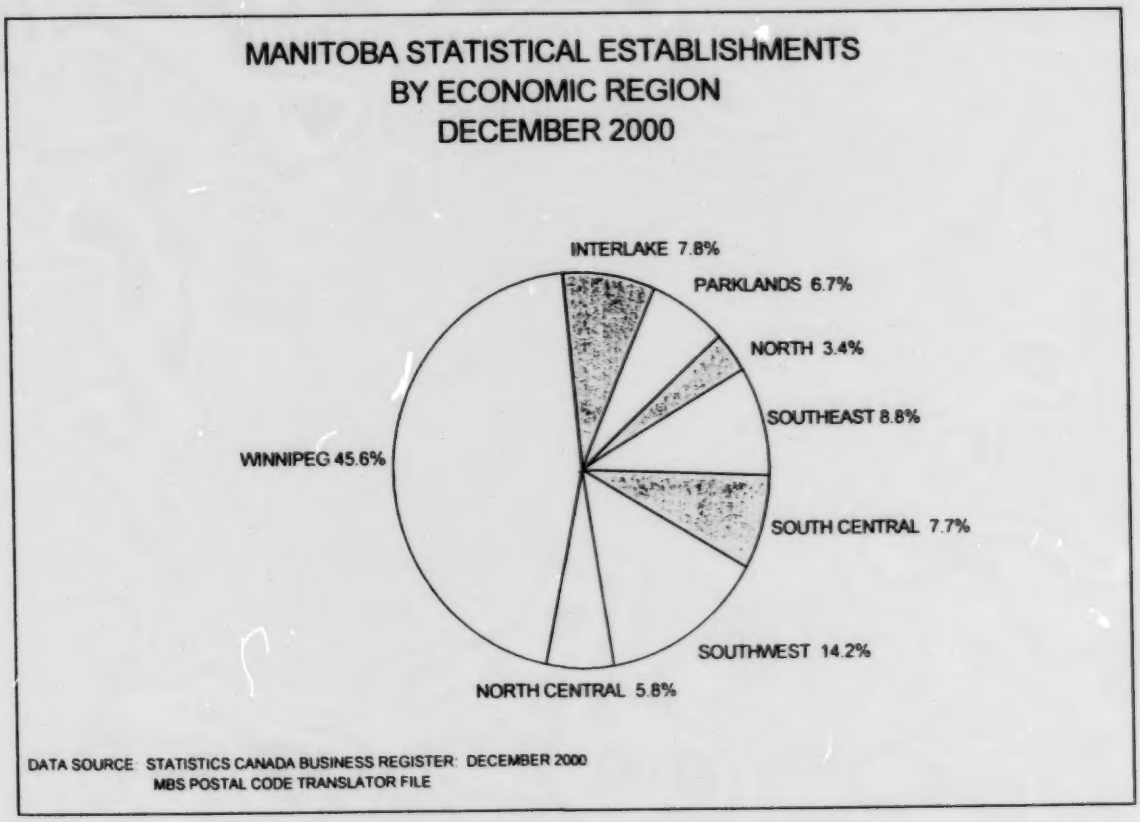
7.0 Manitoba Active Statistical Establishments

This section illustrates the number of "establishments" per industry group and employment size as reported in Statistics Canada's Business Register Data Base. Comparisons between these tables and tables from the Business Register prior to 1991 should not be made because of change in the definition of "establishment". Revenue Canada payroll deduction accounts are the base data source for the compilation of "establishments". The Manitoba Bureau of Statistics Postal Code Translator File was used to determine the regional breakdown of this data.

An "establishment" is defined as the smallest unit of a company (whether sole proprietorship, partnership, co-operative, corporation, etc.) that is a separate operating entity capable of reporting all elements of basic industrial statistics. Establishments are assigned to an industrial group by the 1980 Standard Industrial Classification. These SIC codes represent their major industrial activity.

The tables cover all industrial activity in Manitoba but are limited to the employer portion of the business world. Therefore, a business such as a corner store that is owner/operated, with no paid employees, would be excluded from these counts.



7.1 MANITOBA STATISTICAL ESTABLISHMENTS BY INDUSTRY AND EMPLOYMENT SIZE

INDUSTRY (1980 SIC)	EMPLOYMENT SIZE									MANITOBA
	INDETER-MINATE	1 - 4	5 - 9	10 - 19	20 - 49	50 - 99	100 to 199	200 to 499	500 and Over	
PRIMARY (0100-0929)	12,682	3,063	363	240	116	29	6	5	1	16,505
MANUFACTURING (1011-3999)	841	828	333	292	304	152	85	56	22	2,913
CONSTRUCTION (4010-4499)	3,200	2,179	504	364	255	90	26	10	1	6,629
TRANSPORTATION & COMMUNICATION (4510-4999)	2,339	1,292	230	158	157	56	27	15	13	4,287
TRADE (5010-6921)	4,196	3,434	1,761	1,429	828	227	92	38	6	12,011
FINANCE & REAL ESTATE (7011-7611)	6,241	1,754	501	453	359	108	47	14	12	9,489
BUSINESS, EDUCATION, HEALTH, ACOMMODATION & OTHER SERVICES (7710-7799,8511-9999)	6,406	7,403	2,190	1,633	1,290	518	194	98	52	19,784
